School Description

This school is a unique secondary school dedicated to developing each student's special talents and abilities. A concerted effort is made to give individual attention to each student. As an English-speaking school in Spain, the school has a diverse population. The school exposes its pupils to the advantages of technology from an early age, employing the use of iPads in the classroom. There is also an emphasis on sport and art: the school encourages physical well-being, as well as teamwork and self-confidence.

Languages

- British subjects are taught by British qualified teaching staff.
- A level subjects are all taught in English. Exchange students have four weekly lessons of Spanish language and culture.
