FRIENDLY CATHOLIC GIRLS' SCHOOL WITH A GREAT RANGE OF SUBJECTS AND EXTRA-CURRICULAR OPTIONS!

In a fantastic location just 25 minutes from Dublin city centre, St. Mary's Holy Faith Killester is a safe and supportive learning environment in which each girl is encouraged to fulfill her academic, social and personal potential. The school, which is over 50 years old, offers a broad and balanced curriculum and staff members are committed to the development, motivation and personal welfare of each student.

High expectations are held for all girls and teaching and learning is aimed at excellent academic achievement. Teachers at the school create a positive and respectful atmosphere in classes so that students can feel safe and valued in their contributions. Beyond the classroom, St. Mary's boasts a wealth of exciting learning opportunities including participation in the national SciFest competition in which students present their own scientific investigations.

In early 2020 the school was presented with a SciFest STEM School Award for participating in the initiative for the last 5 years and in recognition of the school's support and commitment to promoting STEM subjects. Thanks to its high quality teaching and pastoral support, St. Mary's succeeds in nurturing a strong work ethic that prepares students for further study and/or the workplace.
